

Thru-Hull Plug  
Instructions

Please read the instruction manual before using this product.

### Parts

- 1. Plug Assemblies (2)
- 2. Rubber Plugs (1)

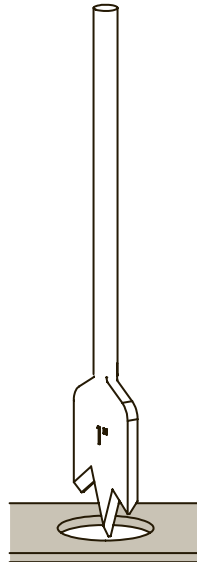

---

### Installation

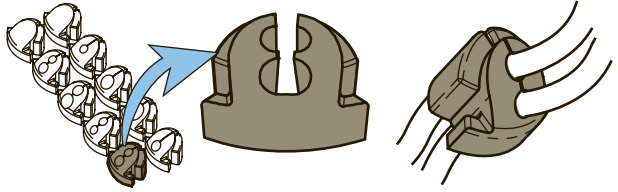

①

Drill a 1" hole where you would like to pass the wire through the hull.

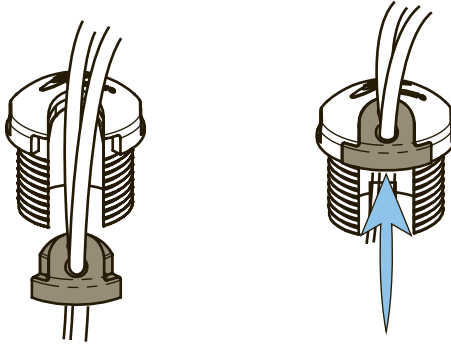

②

Choose the correct plug for your wire size and insert the wire by opening the plug along the slit.

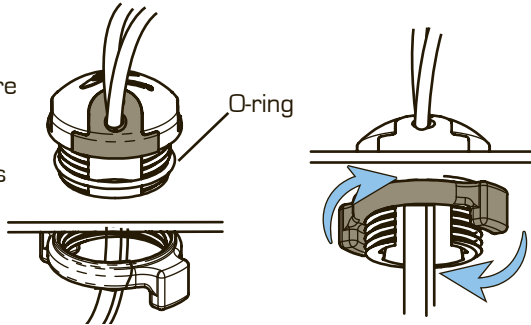

③

Press the new plug with the wire installed into the plastic plug, making sure it fits properly.

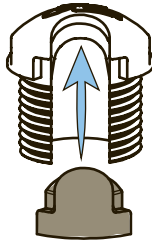

④

Bolt the thru-hull wire assembly to the hull using the nut, making sure the o-ring is installed.

⑤

If you decide to remove the wire from the plug, insert the solid plug and re-install to seal the hole.
